

Dear Readers,

It seems that some activity has restarted! You might want to check the new releases for the P-180 Avanti, now at version 3:

[P-180 V3.0 for FS-X](#)

[P180 V3.0 for FS-2004](#)

It is available both for FS-2004 and FS-X, and for the first time you get a Direct X 10 compatible aircraft, and FS-X SDK compliant! Also I have updated the web page navigability!
