

FS2002 - Aeritalia G-222. Tactical transport aircraft, short Takeoff or landing (STOL), intended to replace, in the Italian Air Force, the Fairchild C-119. Well known as the "Baby Hercules", the "Gigione", "Panda", or simply "G", served Italian air forces until 2005 when it was replaced by the C-27J Spartan, an updated version of the G-222 itself. Animated gears, dampers, propellers, spoilerons, main door, and control surfaces. Reflections and glare effect on fuselage and canopy. This Flight Simulator model is built with Aircraft Designer 2002 and features a 616 Kb model file, transparent 32-bit propellers, DXT3 texturing and 16036 polygons in 120 assemblies exactly. Includes Panel, sound and automatic Parachuter effect when you open the door over 8000 ft and 150 Kts.
